Experience

Firmafy - Full Stack Developer Mar. 2024 - Currently
Remote

- **Laravel + Livewire** panel managing **20k+** digital certificates, **200+ new/month**. Includes dashboards, billing, role access, and audit logs.
- Developed a **custom ticket management system (Laravel)** integrating legacy mailboxes, SLA tagging, and full-text search, cut response time 40 %.
- Created a **Google Drive Add-on (Apps Script)** to send documents via Firmafy with one click.
- Started **frontend modularization with React + REST API Laravel**, delivering a secure auth flow and the first client-facing modules.
- Implemented **CI/CD with GitHub Actions** and **PHPUnit**, enabling weekly deployments with no downtime.

Freelance Web Designer and Developer Sep. 2024 - Currently
Remote

- Delivered **15+ turnkey websites** for SMBs and personal brands using Figma + WordPress/Elementor, SEO-optimized.
- Built responsive **Tilda landing pages** for real estate and coaches boosted lead generation by ~50%.
- Launched lean **WooCommerce stores**, generating €20k+ revenue in the first quarter.
- **Optimized Core Web Vitals** (LCP < 2s, PageSpeed 90+), improving conversion rates by up to 80%.
- Provide ongoing **hosting and maintenance** to 6 clients with 99.9% uptime and steady MRR.
